

## Schedule of Fees Version – 4.0

### Effective from 1<sup>st</sup> of June 2020

Accumulus is predominantly a fee based Financial Life Planning practice. We are sometimes remunerated by way of a commission from a third party which we will only accept where to do so would not materially disadvantage our client or if agreed in advance in writing from the client.

38/39 Fitzwilliam Square, Dublin 2

**Email Address:** [info@accumulus.ie](mailto:info@accumulus.ie)

**Website:** [www.accumulus.ie](http://www.accumulus.ie)

**Phone:** 085 71 10053 or 086 8567460

## Fees

### Financial Planning

We operate a two-route initial fee charging structure.

#### Route 1

A one-time financial plan creation fee of €1,500 and an ongoing monthly subscription starting from €300.

The monthly subscription includes all ongoing services and a guide to how this subscription service works can be seen in the appendices.

#### Route 2

A one-time plan creation fee of €3,000.

As this is a once off fee, our services will only be available to you for the duration of the project concerned.

### Other Fee Advice

To be fair, and transparent we will estimate a fair fixed fee for work we do, agree this with our clients in advance and in writing based on the following charging structures:

Directors:	€300 per hour
Support Staff:	€100 per hour

**Please note all the above fees will be agreed with you in advance and in writing.**

## Assets Under Management

For clients that use our investment services, there is a charge applied to your investment account of between 0.5% and 1% per annum deducted monthly in arrears. This charge is explicit of your investment and is offset against your monthly subscription. For examples of how this works in practice please see the appendices.

## Commission

We only receive a commission payment from a Life Company protection style policy. This commission payment will be paid to us on a monthly only basis in arrears and we do not accept any initial upfront commissions. Any commission payment received by us may be used as an offset against your monthly subscription. Please see the appendices for examples of how this works.
